ABOUT ME

Hello, I am Mehmet Mert Han. I am 24 years old, I have a bachelor's degree in computer engineering. I love teamwork and working in a team. It is said that I have good interpersonal communication. I adapt quickly, I learn a technology quickly and I constantly follow new technologies and pay attention to learning. Learning new things is an important part of my life outside of work.

EDUCATION AND TRAINING

Bachelor's degree in computer engineering

Kırıkkale Üniversitesi [01/01/2018 – 01/01/2024]

City: Kırıkkale

Country: Türkiye

Website: <https://kku.edu.tr/>

Project management

Google

Website: <https://www.coursera.org/>

Flutter and Unity

Google

Finance and Economics

İTÜ Çekirdek

Website: <https://itucekirdek.com/>

JAVA, JavaScript, React, Spring boot

kodlama.io

Website: <https://www.kodlama.io/>

React native, Redux, MobX, NodeJS, GraphQL, Django, Machine learning - Regression models, data analysis, Python, Html, Css

Udemy

WORK EXPERIENCE

Intern

Google [01/01/2021 – 01/01/2022]

City: Ankara

Country: Türkiye

- Flutter development
- Unity development
- Project management skills

Intern

Digitest defense and aviation [01/01/2022 – 01/01/2023]

City: Ankara

Country: Türkiye

- Unity Development
- Weapons simulation systems
- WebGL systems

DIGITAL SKILLS

Full Stack Developer / Game developer / Mobile Developer / App-Developer / Unity Developer / React Native Developer

Unity

Advanced knowledge of Unity / 2D ,3D Unity / C#

React - React native

React, React Native, React Hooks, React Router

AWS Services

Platform : AWS Cloud / AWS Amplify / S3, IAM, VPC, Amplify, Cognito / Cloud Technology AWS Amplify / AWS Lambda / Amazon DynamoDB / AWS AppSync

APIs

Web API (REST/GraphQL) / graphql / GraphQL API

JAVA

Java / Spring (Spring Boot, Spring MVC, Spring Data, Spring Security, Spring AOP, Spring Cloud,...)

Database

Database management (SQL, NoSQL) / Database Design & Programming / MySQL / SQL

Python

Python / Python, automation scripts, Requests, Selenium libraries

PROJECTS

Virtual try on project - Metadya

Metadya is a large, comprehensive and complex project. Metadya is an application that allows people to try on clothes online. Users create avatars in 3D with a selfie photo, weight and height input, and with the created avatar, they can experience the real clothes in the virtual mall and walk around as if they were in the game. I developed this project using Unity, WebGL and APIs and it was selected for ITU Çekirdek, a prestigious incubation program for startups. While being selected, I successfully passed the tough jury eliminations and received positive feedback about my project. In addition, this project attracted the attention of big companies such as LCW and Koton, and we had meetings with the CEOs here and I made some technical suggestions to them.

Link: <https://github.com/mehmetmerthan/metadya>

Full stack social media app

A social media phone application that I developed using React native and AWS cloud technologies. I handled all the functions in detail and technically completed the project both in the front-end, back-end and database part. For this project, I developed on React native, AWS amplify, s3, cognito, AppSync, DyanoDB and GraphQL.

Link: <https://github.com/mehmetmerthan/my-app>

Mobile - Pc Games

I have developed many games both on mobile and PC using the unity game engine. The categories of these games include arcade, first person, hypercasual, casual

RESTful API

This is an api that I developed using spring boot in java. While developing this project, I discussed in detail all the features that should be included in a RESTful API

Link: <https://github.com/mehmetmerthan/mediaShare>

Flutter mobile app

This is a mobile application I developed with flutter

Link: https://github.com/mehmetmerthan/flutter_application

MANAGEMENT AND LEADERSHIP SKILLS

President of the official software development community affiliated with my university

I took the chairmanship of the game development community affiliated to my university after giving trainings in the field of unity.

COMMUNICATION AND INTERPERSONAL SKILLS

Mentoring in Hacettepe University community

I was invited to give mentoring to entrepreneurs both in terms of entrepreneurship finance and technical mentoring in the Hacettepe University GİYAT community and I worked as a mentor here.

HONOURS AND AWARDS

İTÜ Çekirdek Acceleration Program

İTÜ Çekirdek

The virtual try on project I did was selected among thousands of projects in itü core and I passed many different challenging jury eliminations and I qualified to be an İTÜ Çekirdek entrepreneur.

Link: <https://itucekirdek.com/>

Google Academy

Google

I was selected among 50K people to the google game and application academy, where I participated in bootcamps with trainings by google engineers.
